30 min	\$85
60 min	\$135

## *Health Benefits of Doggie Massage Therapy*

Massage is not just for humans! It is great for ALL, even your Pooch! Massage therapy is thought to benefit healthy, young, elderly, inactive dogs and dogs recovering from injuries by improving circulation in the muscles and lymphatic system. Massage is also thought to have behavioral benefits, such as helping to relax aggressive or hyperactive dogs and building confidence in shy, fearful dogs as well.

Elderly dogs suffering from stiffness and arthritis often feel better, move easier and experience less pain after a massage session.
